Celebration® Maple (*Acer rubrum x saccharinum*)

Origin: Lake County Nursery (OH), parent species native to MI

Mature Size: Large (>45' tall)

Description: Celebration® maple is a fast-growing tree tolerant to a wide range of environmental conditions. It has an oval growth form (taller than wide) and yellow and/or reddish fall color. It does not have any serious disease or pest problems, although leaf galls and leaf spots are sometimes noticeable on the foliage. It has a relatively aggressive root system, and should not be planted near sidewalks. Celebration® maple is not entirely seedless, but normally produces only minor amounts of seed.
