'Glenleven' Linden (*Tilia americana x cordata*)

Origin: Sheridan Nursery (ON), hybrid of native & European species

Mature Size: Large (>45' tall)

Description: 'Glenleven' linden has a moderate growth rate and relatively upright form at maturity, although young trees may be as wide as tall. It does not have any serious disease or pest problems, but gypsy moth caterpillars and Japanese beetles will sometimes feed on the foliage. Its leaves are larger than *Tilia cordata*, but smaller than *Tilia americana*. Fall color is usually yellow.
