Mead Rd

26 Mile Rd

Bridge to be closed for construction from May through early November, 2010.

All Museum traffic must approach on Runyon Rd. from the east (which flows into Tienken Rd. at the traffic circle) due to scheduled bridge work. Those drivers coming from the west will need to follow the detour shown on the map to the intersection of Runyon and Dequindre Rds. and then travel west to Van Hoosen Rd.
