"Michigan is a state that builds things. We build cars, new technologies—and in the last century, GM and Michigan built our nation's middle class. This is about more than cars—it's about our way of life. Thousands have already taken action to encourage GM to build their new vehicle here in Michigan, and we need you to join us. Please act today!"

--Congressman Gary Peters (MI-09)

Join this grassroots effort to strengthen Michigan and ensure we're home to GM's future! GM will make its decision by the end of June, so we don't have much time. Please visit <http://www.MakeitinMichigan.org> to take action NOW!
