Auburn Rd Project Update

Week of June 3rd, 2019

Traffic/Access Updates

- The north alleyway will remain closed until about the 3rd week of June when the alleys are anticipated to be open. Access and parking will be maintained via Auburn Rd.
- **CLOSED:** Westbound Auburn Rd between Culbertson Ave and Hessel Ave will be closed for the duration of project. Westbound Auburn Rd access to Hessel Ave from Dequindre Road will remain open.
- **CLOSED:** Longview Ave, Eastern Ave, and Melvin Ave will be closed between Auburn Rd and the north alleyway. The closures are tentatively planned to at least last through the 4th of July. The exact date these streets are to be reopened is not known at this time.

- When utilizing side streets to get around the construction area on Auburn Road, remember to stay alert and obey the speed limits as children are still in school and walking on the sides of the streets.
- Parking will still be allowed in front of north side businesses until the north side alleys open, but parking will be on a gravel surface.

Planned Work (2 Week Look Ahead)

(WEATHER DEPENDENT)

- **Alleyway Project:** Concrete work (curbs, walks, parking areas) to finish next week, asphalt paving of alleyway tentatively to begin.
- **Auburn Road:** Storm sewer installation, and hydrant relocation water main work.

Recent Work Completed

- **Alleyway Project:** Storm sewer work is now complete in parking lots and north side alleys. The stone base has been placed on all north side alleys and in both new parking lots.
- **Auburn Road:** Westbound roadway closed, construction signing placed, and some north side streets were closed. Pavement milling (grinding) and removal of all pavement (including north side parking area pavement) commenced on the north half of Auburn Road. Minor storm work completed on south side at Culbertson.
