

Auburn Rd Project Update

Parking

June 25th, 2019

Alley and Parking Lots Temporarily Open!

The north alleyway and parking lots are now temporarily open. Parking will no longer be permitted in the front of businesses on the north side of Auburn Rd.

Work will still be occurring and portions of the alley and/or parking lots may be closed at times. Please note that the alleys are intended for two-way traffic so be cautious and drive slowly through the newly paved alley segments. The final layer of asphalt will be placed on the north alley and two parking lots after the contractor has prepared and placed asphalt on the alleyway south of Auburn Rd. Thank you for your continued patience while the project construction progresses.
